

REMARKS

The applicant elects the invention of Group I, described in claims 1 to 9, drawn to a beverage distribution system having a heat transfer unit and a refrigeration loop. Applicant has added new claims 17 through 21. Applicant submits that these claims are also directed to the invention of Group I.

Claims 10 to 16 have been cancelled from the application, without prejudice to the applicant's right to include same in a divisional application.

Favourable consideration and allowance of this application are respectfully requested.

Executed at Toronto, Ontario, Canada, on December 19, 2007.
